SUMMARY

Full Stack Developer with internship experience in MERN stack development and data science. Skilled in building scalable web applications, APIs, and responsive UIs using React.js, Node.js, Express, and MongoDB. Proficient in SQL, Python, and Java with hands-on experience in inventory management systems, IMDb clone, and portfolio projects. Passionate about delivering efficient, user-focused solutions through clean code and problem-solving.

EDUCATION

UCE-BIT campus Anna university Trichy | 2022-2026

CGPA : 8.82

Aruna Higher secondary School | 2020-2022

percentage - 89%

SKILLS

Frontend : HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap.

Backend : Node.js, Express.js, REST APIs, SQL, MongoDB.

Programming Languages : Python, Java.

PROJECTS

Inventory Management System – MERN Stack

Developed a full-stack web application to manage products, stock, and sales, implementing CRUD operations, authentication, and a responsive UI using React, Node.js, Express, and MongoDB; followed an Agile workflow with Git/GitHub for version control and collaborative development.

IMDb Clone – React + API Integration

Built a movie recommendation website using React.js and TMDB API, enabling real-time movie search, personalized recommendations, and responsive design; applied modular coding practices and API integration techniques to ensure smooth functionality

E-Commerce Site for Online Learning – MERN Stack

Developed a full-stack e-commerce platform for online learning, featuring course listings, user authentication, secure payment workflow, and responsive UI using React, Node.js, Express, and MongoDB; implemented structured APIs and optimized backend for smooth user experience

INTERNSHIP EXPERIENCE

Full Stack Developer Intern - NextSkill Technology | coibatore- 2025

Gained hands-on experience in MERN stack development by building an Inventory Management System, IMDb Clone, E-Commerce site, and a personal portfolio website. Applied CRUD operations, API integration, authentication, and responsive UI design within an Agile workflow.

Data Science Intern - BigLearn | trichy -2024

Gained hands-on experience in real-time data projects involving preprocessing, visualization, predictive modeling, and workflow automation using Python and ML. During this time, I also developed a sentiment analysis project on Flipkart product reviews.
